

OFGS File No: P/746-10

ENGLISH TRANSLATIONS TO ANNEXES  
OF THE INTERNATIONAL  
PRELIMINARY EXAMINATION REPORT  
DATED JANUARY 21, 2006

**Claims**

1. A UV-protective cosmetic preparation comprising one or more UV absorbers,  
characterized in that  
5 said cosmetic preparation contains effect pigments, which effect pigments have at  
least one protective coating of silicon dioxide, and the effect pigments contain  
titanium dioxide.
2. A cosmetic preparation as defined in Claim 1,  
10 characterized in that  
said protective coating is substantially transparent.
3. A cosmetic preparation as defined in Claim 1 or Claim 2,  
characterized in that  
15 said UV absorber is an organic UV absorber, which is preferably selected from the  
group consisting of benzophenones, hydroxynaphthoquinones, phenylbenzoxazoles,  
phenylbenzimidazoles, digalloyl trioleate, aminobenzoic acid esters, salicylic acid  
esters, acyclic dienones, cinammic esters, benzalazine, avobenzene,  
20 paraaminobenzoic acid and derivatives thereof, cinnamates, salicylates, camphor  
derivatives, benzimidazoles, 4-isopropylidibenzoylmethane, 4-(1,1-dimethylethyl)-4'-  
methoxydibenzoylmethane, 2,4-dimethyl-4'-methoxydibenzoylmethane and mixtures  
thereof.
4. A cosmetic preparation as defined in any one of the previous claims,  
25 characterized in that  
said effect pigments have a layer-on-substrate build-up.
5. A cosmetic preparation as defined in any one of the previous claims,  
characterized in that  
30 said effect pigments are pearlescent pigments.
6. A cosmetic preparation as defined in any one of Claims 1 to 5,  
characterized in that  
35 it exists in the form of a cream, lotion, milk, emulsion, spray emulsion, jelly, oil, spray  
oil, or aerosol.

7. A cosmetic preparation as defined in any one of the previous claims,  
characterized in that  
said cosmetic preparation is a sunscreen agent.

5 8. Use of effect pigments for the production of a UV-protective cosmetic preparation,  
wherein the effect pigments have at least one protective coating of silicon dioxide,  
and the effect pigments contain titanium dioxide.

10 9. Use as defined in Claim 8,  
characterized in that  
said protective coating is substantially transparent.

15 10. Use as defined in Claim 8 or Claim 9,  
characterized in that  
said effect pigments have a layer-on-substrate build-up.

20 11. Use as defined in any one of Claims 8 to 10,  
characterized in that  
said effect pigments are pearlescent pigments.

12. Use as defined in any one of Claims 8 to 11,  
characterized in that  
said cosmetic preparation is a sunscreen agent.
